MOVE Manager EU/LSP/FSP

BCC Mail Manager™ Software

Powerful address-updating tools when you need them

Each year, nearly 40 million individuals and businesses relocate – and can slip out of reach of your mailings—unless your lists are up to date. USPS®-certified Move Update services can speed delivery and help your mailpieces find their targets. And for high-volume mailers, nothing beats BCC Software's MOVE Manager™—the option for BCC Mail Manager Full Service™ and BCC Mail Manager™ users that provides full-time, in-house access to the latest Postal Service™ address-updating technology.

With MOVE Manager, you become a Move Update service provider to your customer base, with total control over turnaround times and vendor charges. There's no better way to ensure the list accuracy you need, when you need it. Using USPS NCOA^Link® technology, the MOVE Manager option delivers the move data, security, and processing performance that keeps you running on deadline and on budget.

The MOVE Manager option puts you in the driver's seat—and your Move Update functionality in the express lane.

HOW IT WORKS

Plenty of Move Update processes can update your lists and help you stay USPS compliant. But for maximum control and the fastest, most up-to-date address correction, the choice is simple. Ideal for high-volume mailers or when list privacy is a particular concern, BCC Software's MOVE Manager options put valuable Postal Service data at your fingertips—letting you interface directly with the USPS NCOA^Link database from within BCC Mail Manager or BCC Mail Manager Full Service.

FEATURES & OPTIONS

Key Features:

» Ideal for high-volume mailrooms or service bureaus

» Optimizes in-house list-updating capabilities

» Direct interface with USPS NCOA^Link database
